

Thank you for your interest in sponsoring Chester County's Sustainability Summit and Expo! The event will be held on Saturday, May 17th at West Chester University from 10 a.m. – 2 p.m. The goal of the event is to demonstrate widespread support for environmental sustainability in the county, and to connect the public with helpful resources to implement key sustainability actions in their lives and work. The event will support the county's Climate Action Plan, which boldly calls for an 80% reduction in greenhouse gas emissions by 2050.

This will be the premier sustainability event in Chester County providing educational opportunities for the general public to receive practical, clear and trustworthy information on topics like going solar, maintaining more sustainable landscapes, and reducing waste. Sponsorship opportunities for the Sustainability Summit and Expo are available and are a great way to align your organization with local sustainability efforts. [Click here to sign up to sponsor the event.](#)
