### Course Description

The course begins with a review of the Municipalities Planning Code (MPC) authority for zoning and presents “nuts and bolts” fundamentals for drafting zoning ordinances and amendments. Included in the course are advanced techniques such as overlay and performance zoning, planned residential development, and traditional neighborhood development. Problem situations and ethical dilemmas in zoning are discussed. The role of the planning commission with other individuals and local agencies in zoning administration, as well as procedures for enacting zoning ordinances and guidelines for rezoning, are discussed in detail.

**Course Fee \$160**
